Property Damage

**Where?****Section:**

Stores- Gate

**Equipment:**

Western Gate

**Incident Description**

Whilst trying to stop in front of the western gate at stores, truck B 732 BMP failed to brake and hit the gate.

**Preliminary Findings?**

- The driver was in possession of a valid authorization.
- Prestart checklist for the day was done and indicated that the truck had no defects.
- The operator was also tested and was negative.
- The truck was brake tested and found to be delay braking.
- Delayed braking was due to wear and tear of brake shoes.

**When?****Body part / Nature of Damage****Date:** 28/01/2022**Time:** 1600hrs

Damaged gate mesh

**Corrective and Preventative Actions**

- The activity was immediately stopped.
- The relevant authorities were notified (SHE and Security).
- The truck has grounded until the defect has been rectified.
- Employees of the section have been briefed on the incident.
- Ramp for brake testing to be constructed for vehicles to test brakes daily
