

**ENVIRONMENTAL TOPIC FOR MAY 2024**

**ENSURE SAFE DISPOSAL OF HAZARDOUS WASTE**

Wrong disposal of oily rags

Oily rags and filters should be disposed in red waste bins provided

- All hydrocarbons waste (oil, grease, oily rags, oil filters) are classified as hazardous.
- They have the potential to impact and harm our health and the environment even in small quantities if not disposed properly.

*N.B Dispose waste into right containers.*
