

ENVIRONMENTAL TOPIC - DECEMBER 2023

LET'S PROMOTE ENVIRONMENTAL SUSTAINABILITY

NB

- Ensure that drip trays are used at all times to reduce the possibility of pollution.
- Ensure all oil spills are cleaned and remediated with a spill kit.
- Ensure that the wash bay and the oil separating tanks are operating effectively at all times, immediately report any issues noticed to management.
- Ensure that waste is properly managed – separate your waste in designated bin/skips on site.
- Do not harm any animals/insects in your operation as they play an important role in maintaining the ecosystem.

Marang W. Molatlhegi
