

**ENVIRONMENTAL TOPIC FOR MARCH 2021**

**IDENTIFY AND MITIGATE ENVIRONMENTAL ASPECTS AND IMPACTS**

It is important identify and mitigate environmental aspects and impacts resulting from process interactions and activities.

<b>Aspect (hazards to the environment)</b>	<b>Impacts (risks to the environment)</b>
Activities that interact or can interact with the environment. <ul style="list-style-type: none"><li>• Vehicle and machinery maintenance</li><li>• Equipment /plant emissions</li><li>• Water and electricity usage</li><li>• Heating of product</li><li>• Fuel Storage</li><li>• Chemical use</li></ul>	Changes to the environment resulting from environmental aspects. <ul style="list-style-type: none"><li>• Air Pollution</li><li>• Effluent discharges</li><li>• Waste generation and disposal</li><li>• Ground and soil contamination</li><li>• Resource usage</li></ul>

When conducting risk assessment remember to include and address environmental impacts.
