

ENVIRONMENTAL TOPIC FOR THE MONTH OF JUNE 2021

AVOID LITTERING WHILE DRIVING

Litter is any misplaced or improperly disposed solid waste.

- Waste such as cigarette butts, plastic bags, fast food wrappers, plastic and glass bottles pollute the environment.
- Plastic waste entangle small mammals and birds.
- When ingested by animals, plastic bags may lead to death.

To protect the environment:

- Provide litter bag in the car to contain waste.
- Carry and use a portable or pocket ashtrays for cigarette buds and lighting materials.
- Do not throw litter out of vehicles windows, make use of waste bins litter.
- Make use of provided waste bins.

Effects of littering on the Environment and community

- Suffocate plants.
- Fire risk
- Harm to animals
- Endangers public safety.
