

SAFETY TOPIC FOR THE MONTH OF FEBRUARY 2024

PREVENT PROPERTY DAMAGES AT WORK

Important tips to prevent property damages:

- Always include risk and controls of property damages in job pre-task risk assessments.
- Report all unsafe conditions that poses as threat to property.
- Ensure that deviations observed in the pre-start checklist of machinery and equipment are reported and repaired timeously.
- Ensure regular inspections of lifting, electrical and emergency equipment are done as per the legal requirements.
- Ensure that all fixed & mobile machinery equipment are serviced regularly by competent personnel.
