

SAFETY TOPIC - OCTOBER 2023

IMPLEMENT EFFECTIVE RISK CONTROL MEASURES ACCORDING TO HIERARCHY OF CONTROLS

1. Eliminate

(remove the cause of the danger completely)

2. Substitute

(replace the hazardous work practice or machine with an alternative)

3. Isolate

(separate the hazard from the people at risk from injury)

4. Engineer Controls

Do nor simply choose a control method the cause it is easy and fast to implement (physical changes, e.g. redesign machine by adding safeguards)

5. Administrative Controls

(install signs, rotate jobs, etc.)

6. PPE

(provide gloves, earplugs, etc.)
