

SAFETY TOPIC FOR THE MONTH OF MAY 2022

WHAT TO CONSIDER WHEN USING MATERIAL SAFETY DATA SHEETS

Tips to consider on Material safety data Sheets:

- **Product Identification** - Name and description of the products and its intended use.
- **Emergency Contact**-Manufacture's name and phone number together with 24/7 emergency contacts.
- **Hazard Identification** - Description of the hazardous nature of the product together with its potential damage.
- **First Aid Measures** - What are the steps to take in case of accidental exposure to the product.
- **Handling and Storage** - Requirements for safe handling and storage of the product.
- **Exposure Control** - Control measures needed when using of the product.
- **Disposal Considerations** - How to safely dispose the product after use.
